More About Martin: Google Suite

9th October 2026

Google login format

Most logins will consist of:

few letters of surname + initial + numbers then .302

then always @martinprimary.barnet.sch.uk

for example: silvw450.302@martinprimary.barnet.sch.uk

password usually noun + number

for example sofa7

An account is set up for all children joining the school from Year 3

You can always email the office or ask the teacher to be reminded of your child's login details

Ways to log in

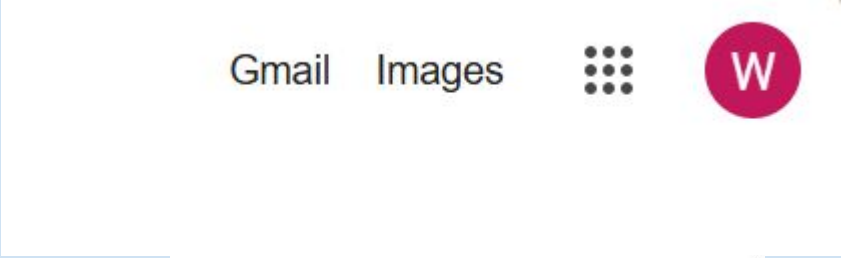

Can be accessed on laptops, PCs, mobile

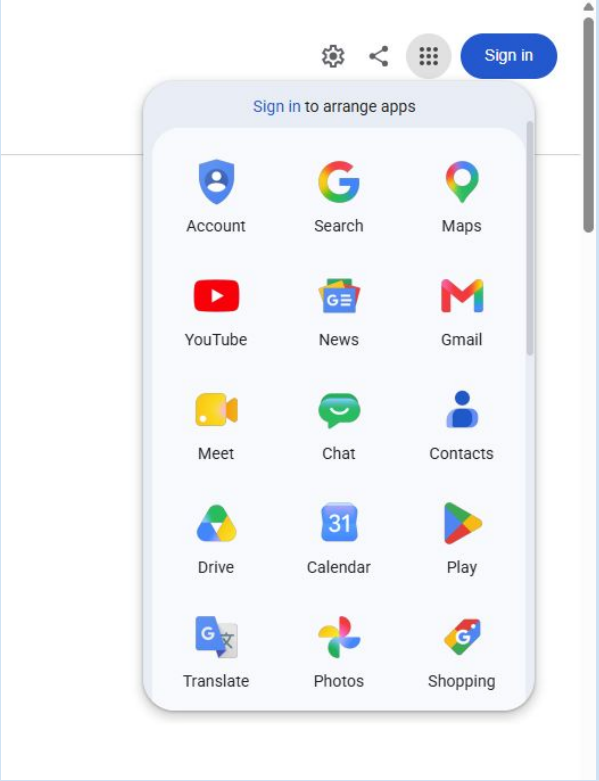

Google Classroom

Google login

Google Drive

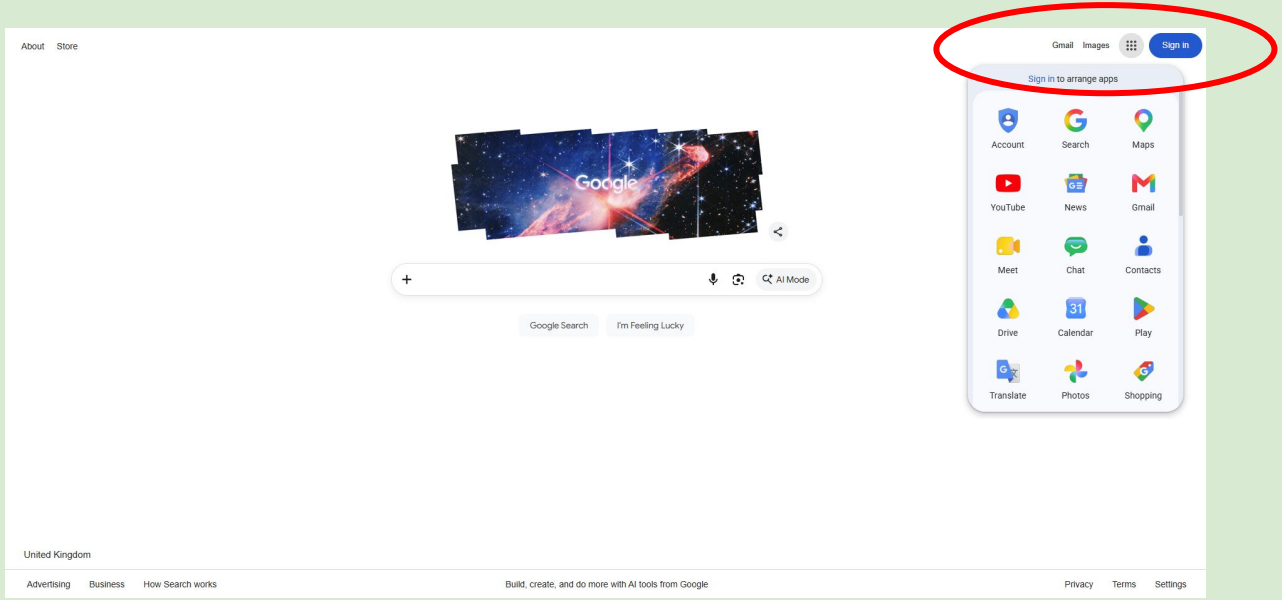

straight through Chrome

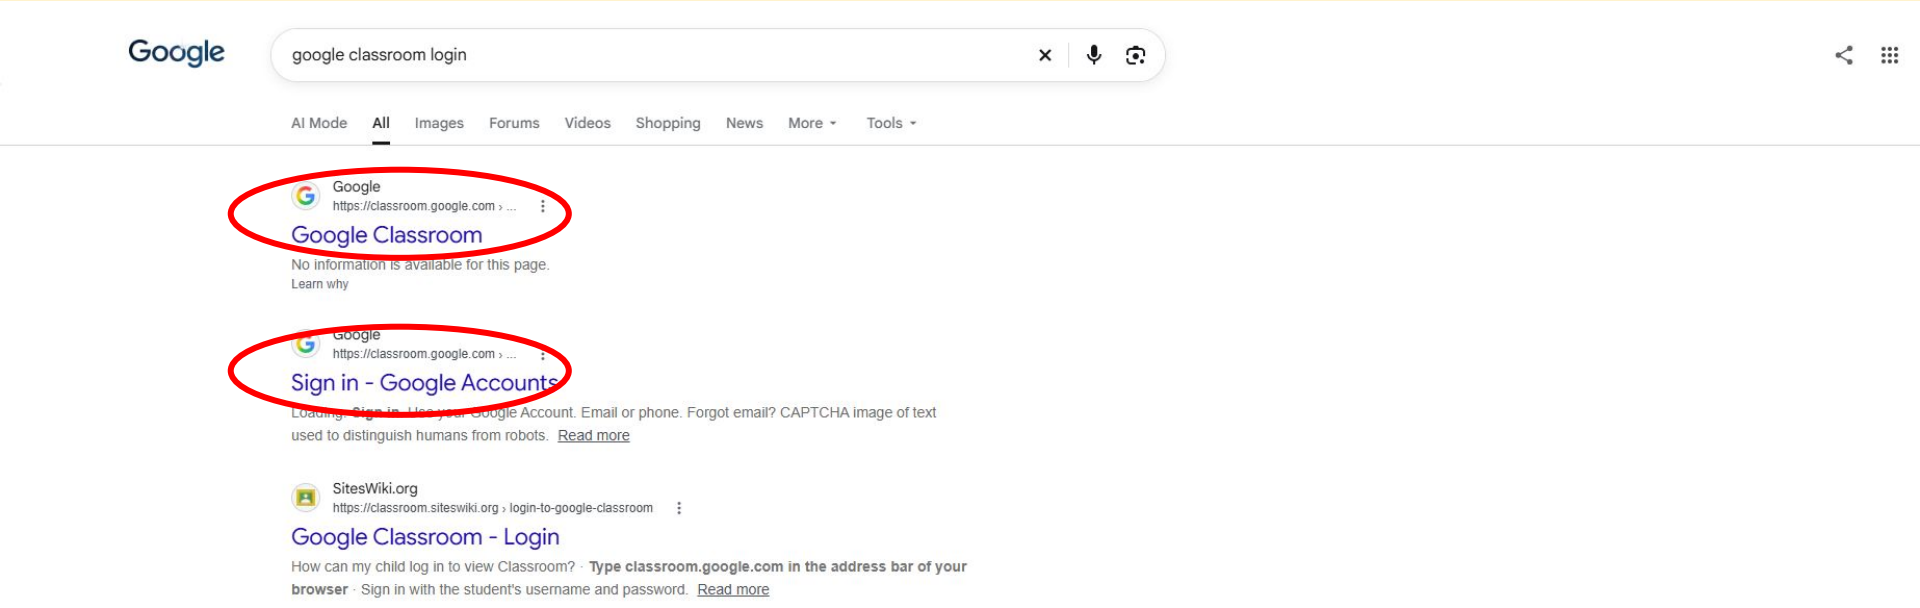

Signing in on a laptop/PC

The Google Chrome browser opens on the Google page already. All you need to press is “Sign in” in the top right corner and then choose an app you want to access (e.g. Google Classroom/Google Drive) from the drop down menu

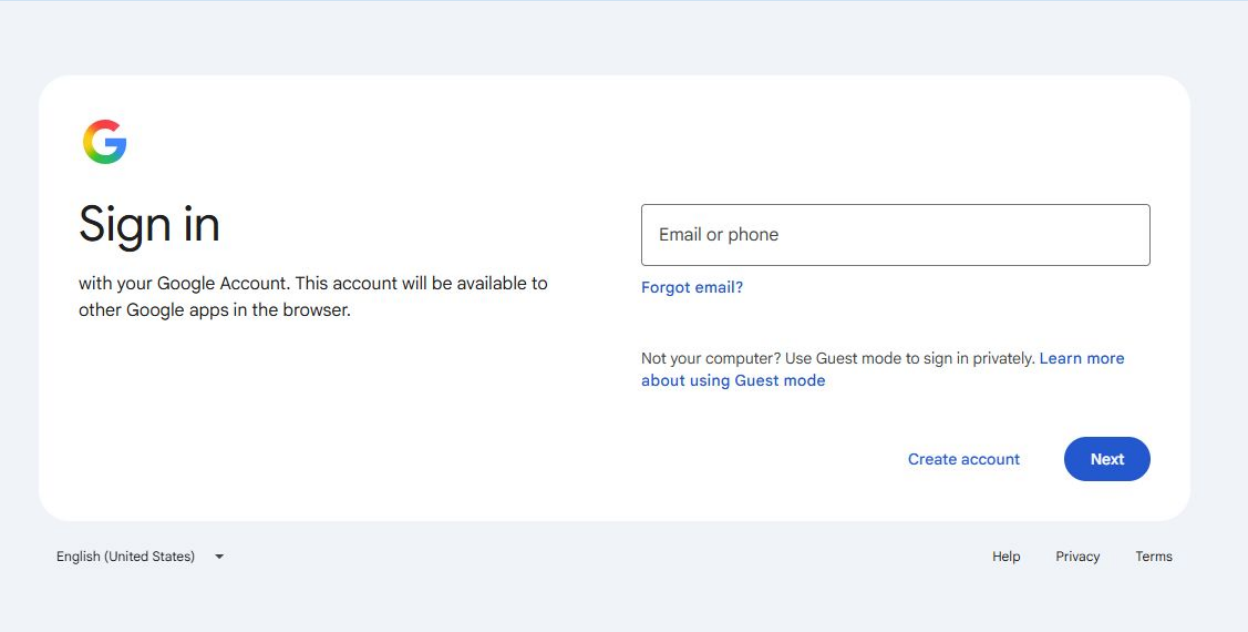

Signing in on a laptop/PC

You can also type in “Google Classroom login” or “Google account login” or “Google Drive login” into the search box.

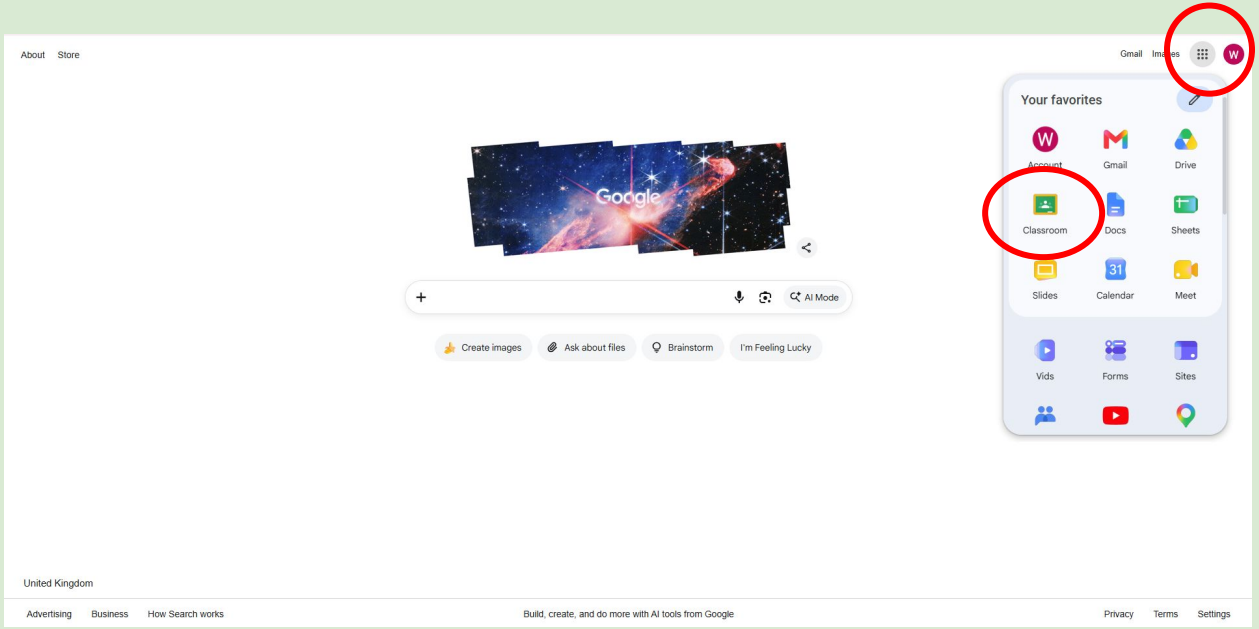

Signing in on a laptop/PC

You can then use your child's login details to sign in, making sure it ends in @martinprimary.barnet.sch.uk

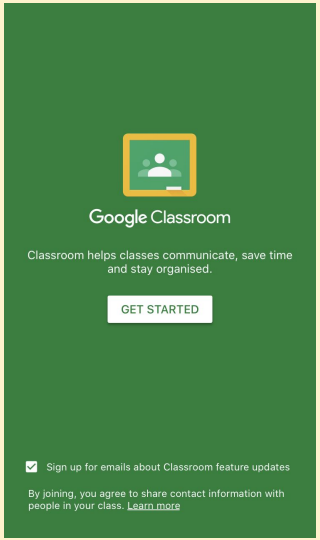

Signing in on a laptop/PC

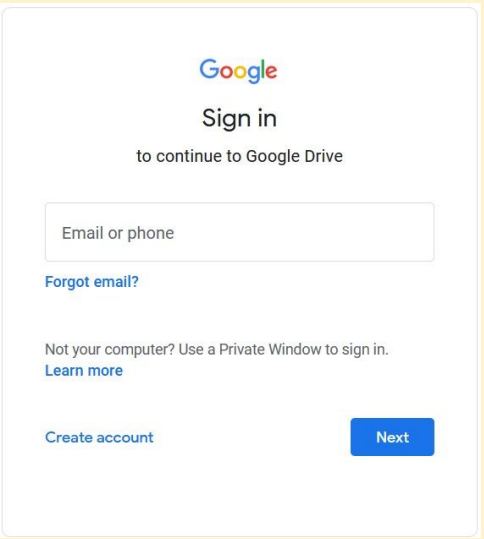

You may need to choose the app in the drop down menu again or you may be taken straight to Google Classroom if you chose that option

Signing in on mobile

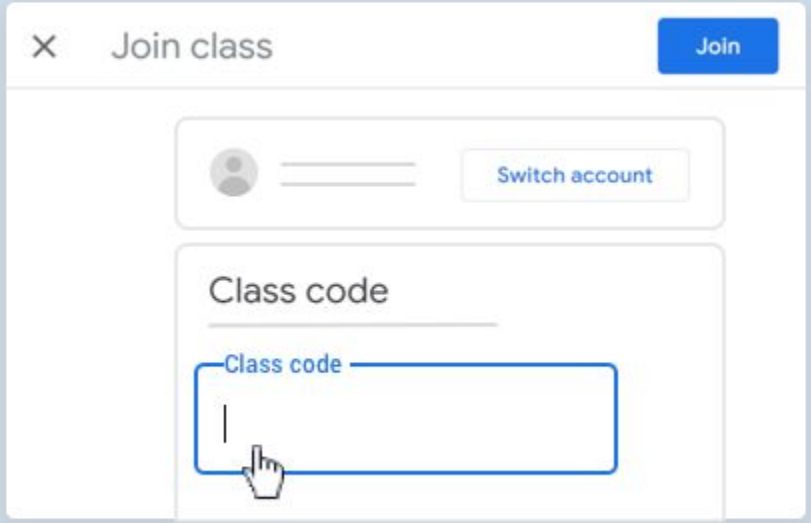

You can sign in by choosing the Google apps already installed on your phone, download the Google Classroom app or within your browser and follow similar steps to the ones previously mentioned for laptops and PCs.

Singing in

If your child is new to the school, they may need a class code to join the correct Google Classroom class. You can get this from the class teacher.

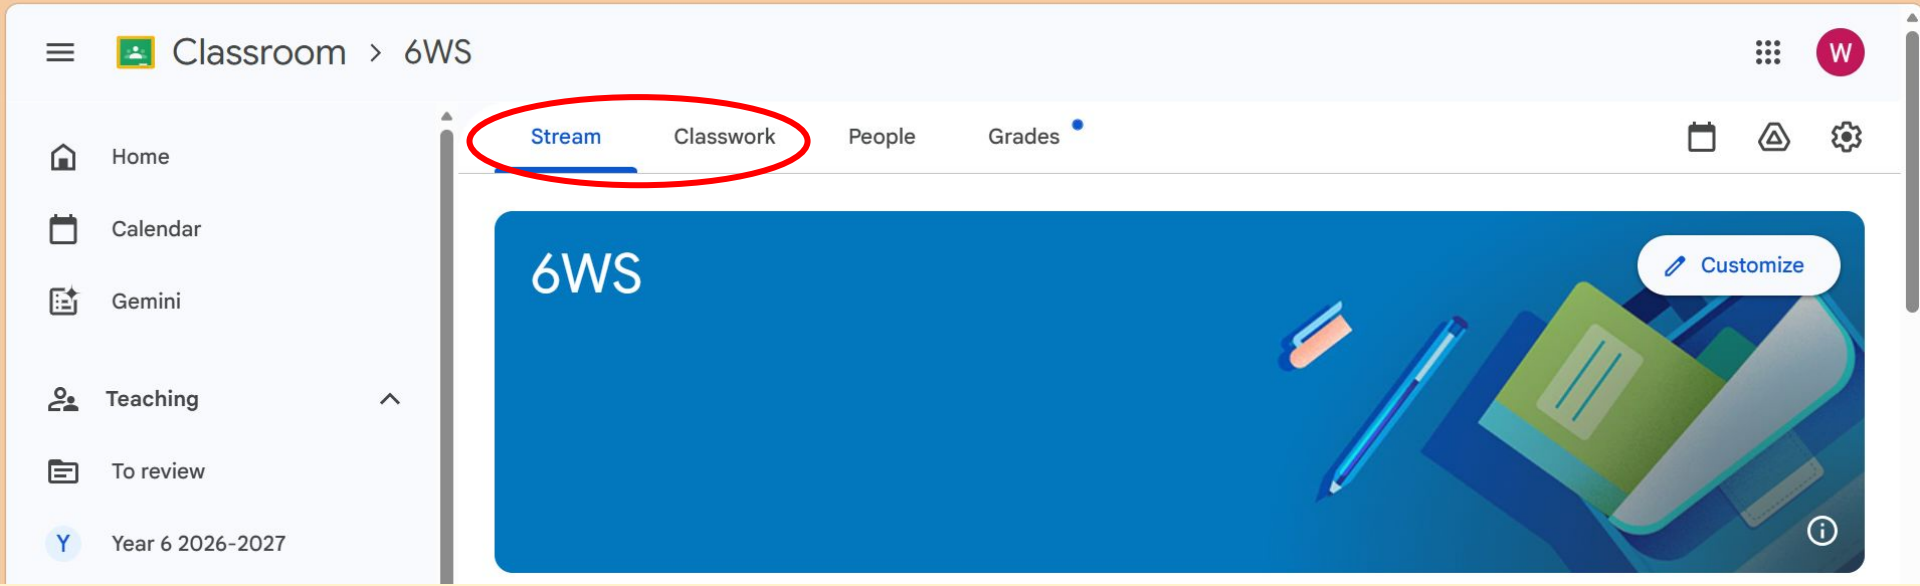

Google Classroom

When is Google Classroom used:

- homework is set on Google Classroom
- setting individual work/extras if it's been arranged
- in class tasks that require laptops - e.g. computing, research tasks in science/history/geography
- surveys
- extra activities
- completed tasks, e.g. songs created during music lessons

Other uses for Google suite

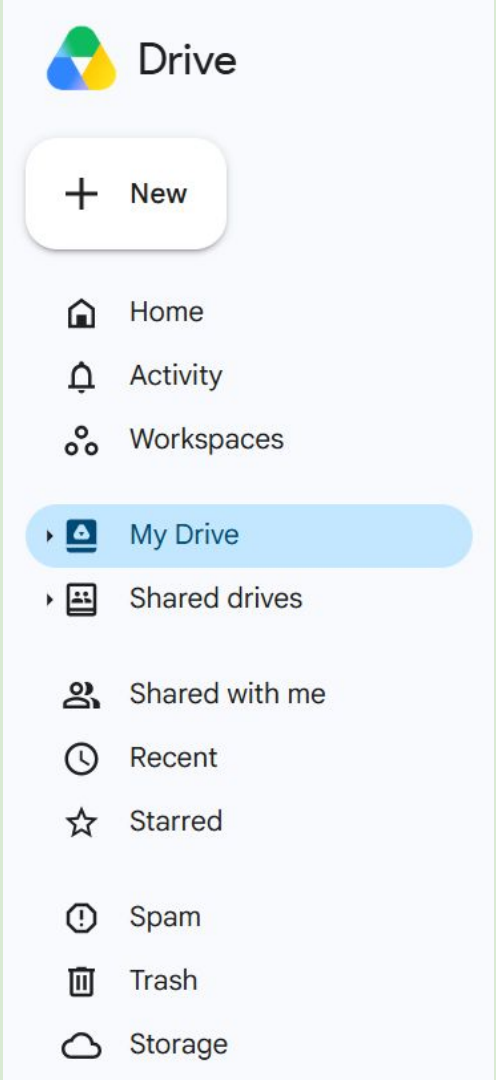

creating slides for homework or other activities

writing on Google Docs in class (e.g. English creative writing) and then having it printed or writing at home for printing in school later (e.g. pieces for school newsletter)

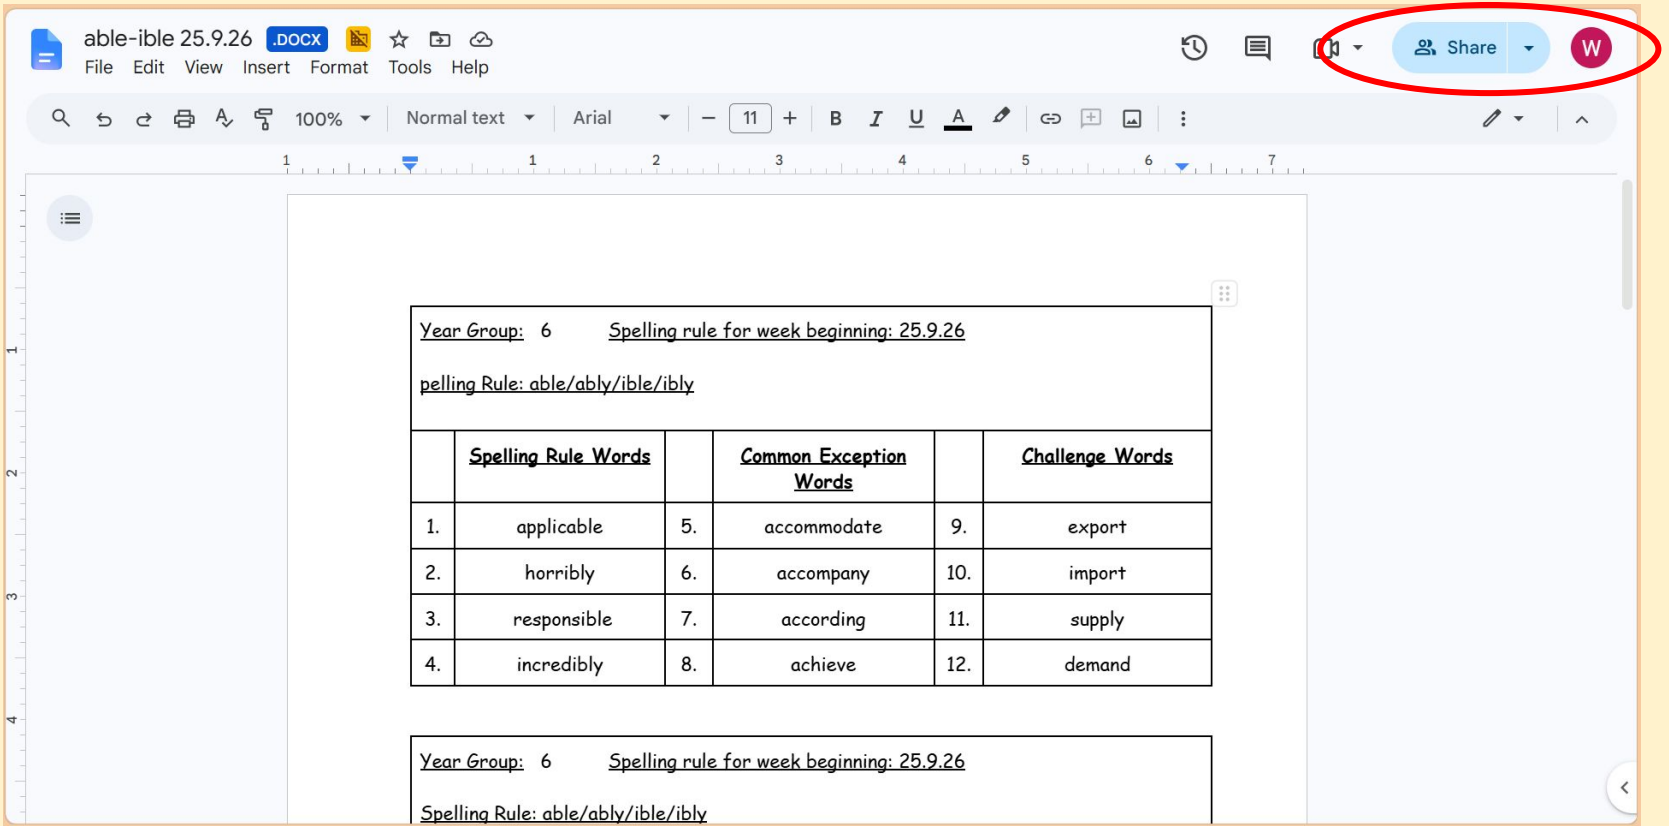

sharing work with teachers or other staff

Google Drive

Anything your child creates on the various Google apps will appear on their Google Drive and will save automatically

Sharing files with staff members
